The Coffin Collection

## Our Ethos

---

### Our promise to you

---

We are aware of the sensitive nature of providing funeral services and are committed to always being open and honest in how we work. We give help, advice and support to our clients.

### Confirmation of arrangements and estimate of costs

---

We give each of our clients a 'Confirmation of funeral arrangements and itemised costs' estimate. The estimate shows each client's requirements, for example if they choose to have newspaper insertions or flowers.

### What we think about the environment

---

Many of the natural resources of the world are being used more quickly than they can be replaced. These environmental changes are reshaping our society.

We are aware of the many issues which affect the environment. It is our policy to ask our suppliers to guarantee that all timber they use to make coffins and caskets comes from managed forests. (This means that for every tree used, another is planted.)
